**THE CITIZEN.**  
SATURDAY, - JANUARY 24, 1888.  
**LOCAL MATTERS.**  
**A New Enterprise.**  
THE CITIZEN has recently mentioned  
the subject of dry gold washing and  
urged more experiments in that line.  
We now learn that the Arizona Con-  
centration Company has been formed  
for that purpose and will at once intro-  
duce the dry washing process on a  
large scale. Dr. C. M. Seelye, of San  
Francisco, whose name is mentioned  
elsewhere in this issue, is largely in-  
terested in this company and informs  
us that during his recent visit to Ariz-  
ona he secured by location and lease  
about 1000 acres of placer ground.  
Three hundred acres of this land are  
located at Gila City and six machines  
are now building for that locality. On  
his way down Dr. Seelye worked some  
dirt with a hand machine at Gila City  
which yielded from \$5 to \$11.50 per  
ton. Some of the dirt sent to San  
Francisco yielded \$13.65 per ton. The  
six machines to be sent are only to  
make a fair test of the pay dirt and  
will be run by a one-horse power. If  
successful, the number of machines  
will be largely increased. The ma-  
chine to be used is the Stephens'  
patent, all iron, light and portable,  
with a capacity of one ton per hour.  
As the company will soon begin opera-  
tions at Gila City we shall look with  
interest for results.  
On Wednesday Mr. G. E. Lynde ar-  
rived from the Papago country bring-  
ing with him about 1600 pounds of ore  
from the Fremont and Jesse mines.  
The ore has a copper stain and is very  
rich in chlorides and sulphurets. It  
was Mr. Lynde's intention to have this  
work at Warner's mill, but owing to  
the unfortunate reputation of that mill  
Mr. L. has concluded to send up an  
other batch from the mines and then  
ship it all to San Francisco for reduc-  
tion. These mines are about 67 miles  
southwest from Tucson, and have only  
recently attracted public attention.  
The ledges are well defined, the ore  
high grade and in good quantities.  
We have always had a good opinion  
of this district, and expect to see the  
same more than verified. Messrs.  
Pierce & Wood have some interest  
here, and the mines recently bonded to  
eastern parties by Messrs. Stout, Ro-  
man and Miller are located in this dis-  
trict.  
AMONG the passengers leaving for  
San Francisco by coach Wednesday  
was Dr. C. M. Seelye, President of the  
Arizona and New Mexico Mining and  
Prospecting Company. Dr. Seelye has  
spent about two weeks in Arizona  
looking over the mining districts and  
placer fields in which his company  
propose to operate. He spent several  
days in the Oro Blanco District, with  
which he expresses himself greatly  
pleased. Through the instrumental-  
ity of Dr. A. H. Noon the company  
have secured several promising loca-  
tions in that district and will com-  
mence vigorous prospecting at once.  
This company has been organized  
since last October and is composed of  
men with money and energy.  
MR. JAMES PETERS is in town from  
the Bosque ranch, on the upper Santa  
Chaz. We learn from him that con-  
siderable travel is now passing over  
the road to and from Sonora. Times  
are generally quiet, but spring will  
undoubtedly bring new life in the mining  
interests. Mr. Peters fears the crops  
will be very light unless we have con-  
siderable rain soon. This would be  
unfortunate indeed, as that section de-  
pends largely on its grain harvest for  
annual profits.  
THE firm of W. B. Hooper & Co., im-  
porters and wholesale and retail deal-  
ers in foreign and domestic wines and  
liquors, are to the front again with an  
elegant stock of O. K. Cutter whiskeys,  
Burgundy (imported), Rhine wine (im-  
ported), Dupuis Claret and Sunny  
Slope Port. To the excellence of these  
brands THE CITIZEN can testify.  
Thanks, gentlemen, we are correspond-  
ingly grateful.  
THE new administration will fence  
in the court house plaza. The old oc-  
tello stockade has been rooted up and  
the picket fence enclosing the Hopkins  
property, lately purchased by the city  
for the railroad, is now being removed  
and placed around the plaza. This  
affords a pleasant diversion for the  
prisoners and will greatly improve the  
appearance of the plaza.  
MR. HERMAN PHILLIPSON has been  
appointed agent for THE CITIZEN at  
Tombstone, and will hereafter deliver  
the papers in person to all our daily  
and weekly subscribers. The Daily  
contains the very latest news, and will  
be delivered promptly by our agent.  
Please hand your names to Mr. Phil-  
lipson.  
MR. D. B. GILBERT left for Hermosa  
on Monday and will at once put a  
large force of men at work grading  
mill site, road to mill, putting up  
buildings and other work. The new  
mill is about completed and the first  
shipments will soon arrive at Casa  
Grande.  
MESSRS. ALLEN, Abbott and Cop-  
land left last Tuesday for the Papago  
District to make some surveys of  
mines in which these gentlemen are  
interested. The Papago country is  
rapidly coming to the front and prom-  
ises development in that will fairly  
rival Tombstone and Patagonia.  
THE missing bridegroom put in an  
appearance Wednesday, and seems to  
have no recollection of any proposed  
wedding. It is a little strange, he says,  
that a man cannot leave town for a  
day without having all the sheriffs and  
policemen in the country after him.  
MRS. F. L. ACTON, of Fort Lowell,  
left by coach on Thursday for a visit  
to friends in San Francisco, to be ab-  
sent six weeks or two months. Her  
many friends wish her a pleasant visit  
and safe return.  
MR. T. L. STILES has been made  
resident agent and correspondent for  
the Boston Economist, and as that pa-  
per has expressed a desire to represent  
the true and exact situation of mining  
affairs, a more reliable and competent  
man could not have been chosen.  
MR. JOSEPH COLLINGSWORTH of Flor-  
ence passed through Tucson last week  
on his way to Sonora where he has im-  
portant interests in real-estate and  
mines.  
Reports from the Hard Shell mine,  
in Patagonia, say the property is look-  
ing first rate.  
MAYOR TOOLE has gone to Patagonia  
to look after his mining interests there

**YESTERDAY**, at the office of Dr. T. S.  
Hitchcock, our local genius, as well as  
excellent dentist, we were shown an  
exquisitely engraved cigarette case of  
solid silver, the Doctor's own handi-  
work. He has taken the silver in the  
native form, moulded it into a suitable  
shape and then by the skilled  
touch of his delicate chisel, traced  
unique figures purely native in charac-  
ter, such as houses, castles, palm trees,  
the cactus, mountain ranges, both faces  
of the famous Mexican or "raw hide"  
dollar, etc., all of which stand out in  
bold relief and with striking exactness.  
The case is surmounted with a pearl  
cap and two native gems. This adds  
another interesting article to the Doc-  
tor's private cabinet.  
MR. L. M. JACOBS, head of the firm  
of L. M. Jacobs & Co., of our city, will  
arrive in Tucson in a day or two, after  
an absence of over six months. He  
will find many friends to greet his re-  
turn.  
MR. HOWARD SCHUYLER returned on  
Thursday from an extended trip over  
the proposed railroad routes through  
Sonora, whether he went to accompany  
Mr. Morely, of the Atchison, Topeka  
and Santa Fe.  
"We learn that Tanner & Co.'s new  
saw-mill in the Huachuca will be de-  
livering lumber in about thirty days.  
This mill is only twenty miles from  
Hermosa and will supply that camp."  
MR. JOSEPH GOLDBERGER returned  
from Tombstone last evening and says  
several good properties in that district  
will be bonded for large sums "within  
the next week."  
REGULAR services at the Presby-  
terian church to-morrow morning at eleven  
o'clock and in the evening at half  
past seven.  
We understand Mr. Chas. Isenbeck  
will take charge of the Arivaca mill on  
the 1st prox., the charge against him  
having been settled.  
SUPERINTENDENT DENNIS returned  
yesterday from his mill at Arivaca,  
and reports work on the new structure  
progressing nicely.  
Don't forget the Republican meet-  
ing Monday evening at eight o'clock,  
to elect delegates to represent Pima  
county in Territorial convention.  
MR. J. S. VORBERG returned yester-  
day from an extended trip through  
the mines of Pima county.  
MR. P. M. HINTON is in town from  
the Santa Rita country.  
JUDGE CHAS. SILENT, of Prescott,  
arrived by coach today.  
MR. W. C. PARSONS is in from Tomb-  
stone.  
MR. A. W. STOWE arrived from  
Tombstone today.  
**Phenix Dots.**  
From the Herald of January 19:  
A number of teams were camped  
near the telegraph office yesterday,  
loaded with a quartz mill, which was  
said to be the property of a Philadel-  
phia company and intended for Turkey  
Creek, Yavapai County.  
George Tyng having resigned the  
office of Clerk of the United States  
District Court of the Second Judicial  
District, Judge Porter has appointed  
Francis A. Shaw to fill the position,  
dating from the 15th inst. Mr. Shaw  
will make a faithful and conscientious  
officer.  
SHERIFF WALKER arrived this morning  
from Prescott, having in charge stage  
robber Morgan and Miles, who are on  
their way to the Territorial Prison at  
Yuma. Morgan was arrested for rob-  
bing the stage south of Prescott and  
sentenced to imprisonment for life and  
Miles, for murder, fifteen years.  
THE Mexican government has or-  
dered the celebrated castle of Chapul-  
tepec to be razed to the ground, and  
General Grant and party. The castle  
is about two miles from the city, over-  
looking the entire Mexican Valley and  
the City of Mexico. A house is also  
being prepared in the city, to enable  
the party to alternate between town  
and country.  
A SPECIAL to the El Fronterizo from  
San Diego announces the arrival in  
that city of certain revolutionists from  
Gen. Marquez' forces, who are there to  
obtain funds and arms to aid their  
cause. General Marquez is somewhere  
in Lower California.  
**Travelers.**  
The following passengers departed  
for Casa Grande today: Ed. Kelly,  
C. H. Holbrook. Arrived from Casa  
Grande: Judge Charles Silent, Chas.  
E. Frederick, W. H. Galerter, O. W.  
Bennett, W. McEllan, J. M. Shannon,  
Mr. Champion.  
THE True Blue mine in Tombstone  
District has been sold for \$25,000 and  
the money paid to Messrs. Adams and  
McCarthy, who were the fortunate  
owners. This property has an excel-  
lent showing.  
We are most reliably informed that  
the work on the Southern Pacific rail-  
road will be resumed in a few days, in  
consequence of which prices in cloth-  
ing, boots and shoes, groceries, Tobac-  
cos, and liquors and all other kinds of  
merchandise will be sold lower than  
ever at S. H. Drachman's.  
PIERCE & WOOD,  
Wholesale Fruit and Produce Dealers,  
Meyers Street,  
Are Constantly Receiving  
FRESH GARDEN and FIELD SEEDS.  
**Nichol's Infallible Injection.**

permanently every case, no matter of  
how long standing, if directions are  
followed. Internal medicine not rec-  
ommended or necessary. A cure guar-  
anteed or money refunded. Directions  
in English, German, French and Span-  
ish. For sale by C. H. Meyers, Con-  
gress street.  
THE Maine muddle solved at last—  
call at S. H. Drachman's, and you will  
be convinced that you can pur-  
chase all kinds of goods cheaper than  
at any other house in Tucson.  
**Grand Reduction.**  
Suits heretofore sold for \$25 now  
selling for \$20, \$20 suits for \$15; \$15  
suits for \$10, and all other goods in  
proportion at S. H. Drachman's, Main  
street, Tucson, and don't you forget it.  
STRANGERS coming to Tucson should  
not forget to visit the Pioneer News  
Depot.

**Tombstone Inscriptions.**  
(From The Nugget, January 22.)  
Quite a number of persons have gone  
to the cemetery to look at the new  
discoveries in that range.  
Mr. Marshall Williams has been ap-  
pointed resident correspondent and  
agent of the Boston Economist. A  
better selection could not have been  
made.  
Tombstone has received its first pi-  
ano, the property of Miss Louisa Bil-  
icke.  
Within the past few days there has  
been considerable excitement created  
in the Whetstone mountains, about 12  
miles northwesterly from Wakefield's  
station on the Tucson road. New mi-  
nes are the cause.  
The fencing mania seems to have  
befallen our people. Cross lots and  
by trails are fast closing up and now  
we are obliged to keep the streets to  
gain any given point.  
Ed Scheiffelin, who started on an  
extended prospecting expedition two  
months ago, was heard from at Shak-  
speare a few days since. He will  
travel until March next, and close his  
journey at Lehighville.  
McCalley & McConkey have gone  
back to Cay Creek Canyon to super-  
vise work on claims lately bonded by  
them to eastern parties. We learn a  
handsome figure was agreed upon.  
Being invited off the ground to the  
debt of six months and shotguns does  
not seem to suit the notions of our  
surveying craft. Several incidents of  
the kind occurred during the past  
week.  
Ed Mitchell, one of the locators of  
the Eureka mine, formerly the Bunker  
Hill, and others, have been arrested on  
a charge of trespass, made on the af-  
firm of Marcus Katz, of Tucson, and  
accompanied by Judge Wallace, will  
have to visit the metropolis, on busi-  
ness.  
Lieut. Frank B. Hall, well known  
in our mining camp, returned here  
from a trip to the Patagonia district,  
on Wednesday. He has let a contract  
for sinking a shaft 50 feet on the  
Anna B. Watson mine, located in the  
Patagonia district, said to be very good  
property.  
Hon. Wm. A. Simmons, president,  
and Rollin M. Squire, one of the di-  
rectors of the Empire mining com-  
pany, Charles O. Parsons, M. E. and R.  
F. Straine, of the Economist, all of  
Boston, who have been visiting Tomb-  
stone for several weeks, started on  
their return today.  
Work on the Sunset claim, recently  
purchased by Mr. Say and parties from  
Pennsylvania, is being pushed forward  
with great rapidity. Buildings have  
been erected on the property for of-  
fices, blacksmith shop, etc., and Mr.  
Fox, superintending the work in the  
two shafts, is making some most won-  
derful developments.  
The Corbin mill has been at work  
during the week on Lucky Cuss ore,  
and the projectors of the enterprise  
are more than pleased with the result  
so far. Mr. Corbin is a Connecticut  
gentleman who has displayed remark-  
able energy in successfully complet-  
ing one of the best mills on the Pacific  
coast and deserves all the success he  
is about to realize.  
Col. Stanford, of Tucson, is in town  
this week, looking after a claim re-  
located in his name, known as the  
Bosque mine, in the vicinity of the  
Mormon. Specimens brought in  
yesterday show horn silver in richness  
surprising to everybody who has seen  
it. A hole about four feet deep has  
been put down by James Stanford,  
from which the specimens were taken.  
**The Empire Mine.**  
Prof. E. T. Cox, State Geologist of  
Indiana, and Mr. Charles O. Parsons,  
a well known mining engineer of Bos-  
ton, were engaged on Monday in exam-  
ining the Empire mine of this district.  
Their report will be published in a  
few days. Recent developments are  
proving the mine up in a very satisfac-  
tory manner. The shaft is down 200  
feet, and a cross cut is being made to  
the east and west walls. The work of  
prospecting and developing is being  
vigilantly pushed. North and south  
drifts are being run from the 200-foot  
level. The president has ordered the  
construction of a three-compartment  
working shaft which is to be sunk to  
a depth of 600 feet. Work was com-  
menced on this shaft on Monday. Con-  
siderable ore is being taken from this  
shaft, which averages over 800, and  
specimens from which go into the  
hundreds. A shaft house and a black-  
smith shop is being erected. Hoisting  
machinery with a capacity of 1000 feet  
depth has been ordered, and will be  
erected at once. The Empire is owned  
by Boston capitalists, and is being de-  
veloped upon an extensive scale, the pre-  
sident and directors having satisfied  
themselves of its great value. It is the  
northern continuation of the Conten-  
tion ledge, and is the best developed  
mine in the district, with the exception  
of the Contention, Tough Nut, Lucky  
Cuss and Grand Central.—[Nugget.]  
**A Useful Book.**  
We have just received a copy of a  
little volume of 130 pages entitled the  
"Dictionary of Terms," which seems  
to us just the book for this country. It  
is an English-Spanish vocabulary of  
all the most useful and necessary terms  
used in commerce, trade, mechanics,  
mining, etc., for the special conveni-  
ence of Americans in Spanish speak-  
ing countries and Mexicans in English  
speaking localities. It is neatly bound  
in a convenient size and will be kept  
for sale by Mr. D. Velasco, on Mesilla  
street, who will have an invoice on  
hand in about fifteen days. Every  
merchant and miner should have a  
copy.  
**Pinel Items.**  
A correspondent writing from Pinel  
(formerly Picket Post), under date of  
January 21, says, "This camp is slowly  
but steadily growing. Within the  
past six months eleven or twelve new  
houses have been built, all of a sub-  
stantial character, showing confidence  
in the permanency of a bright future  
for Pinel. A gradually increasing in-  
terest is being manifested in our mines.  
The Silver King, that giant among  
mines, towers higher and higher every  
day in the opinion all."

**The Superstitious Pimas.**  
A few days ago THE CITIZEN noticed  
the finding of the body of a Pima In-  
dian near Phenix, who had evidently  
been beaten to death with a club. The  
Herald of Monday comes to us with  
the following:  
The Maricopa Indian who brained  
another member of his tribe Saturday  
morning was, we learn, the executioner  
of his tribe, and was acting under  
orders from headquarters. The crime  
of which the murdered man was  
guilty, was being a witch, and caus-  
ing the death of a number of his  
people. His first victim was a child  
and had the whooping cough, and  
passing the witch one afternoon, the  
next day. A few days afterwards, died  
the witch borrowed a horse for the  
purpose of going after one of his own  
some miles distant. He returned in  
shortly afterwards to his owner, but it  
died next day. His next case was a  
squaw with whom he went to live, she  
soon turned her back upon him and sail-  
ed away to the happy hunting ground.  
His last and final offence was the  
dying of a child of the chief, the cause  
of which was laid at the door of the  
witch, and his death demanded. It  
was so ordered, and he was taken to a  
solitary spot and brained in the most  
approved fashion. There not being  
sufficient wood to burn him, he was  
buried and a fire built over his grave  
that the Good Spirit might know where  
he was interred. A squaw attended  
the execution as chief mourner.  
THE commune of Oberammergau  
has built a new theatre for the repre-  
sentation of "History of the sufferings  
and death of Jesus," which will be  
given in the famous valley next year.  
The part for the spectators will be  
moderate between five and six thousand  
people. Exactly as in the great theatre  
built for the Wagner festival at Bay-  
reuth, the orchestra will be placed  
quite out of view of the spectators  
who will be engaged in the perform-  
ance. Including children, will be be-  
tween 650 and 700. Of these 19 will  
be actors and solo singers. The or-  
chestra will consist of 30 performers.  
Almost the entire population of the  
district will have some share in these  
gigantic representations.  
**A Charmed Life.**  
Last Friday C. F. McGlashan, edi-  
tor of Truckee Republican, was thrown  
from a snow pile behind which six  
Central Pacific Railroad locomotives  
were. He fell between the rails and  
three of the engines passed over his  
body, tearing off his overcoat and cut-  
ting the cape of his sailor cap. He  
was not hurt.  
RICHARD C. MCCORMICK, who was  
Commissioner for this country to the  
Paris Exposition, has done something  
that is almost unheard of in the United  
States. He has turned into the Treas-  
ury an unexpended balance of \$10,000.  
Mr. McCormick will not succeed as a  
politician if he does that sort of thing  
often.—[Stock Report.]  
A RETIRED Spanish soldier, Lopez,  
is 112 years old. He recently sent to  
his son at Columbus, Georgia, a letter,  
saying that, after forty years of army  
service he has been retired on \$1,500 a  
year. The son who received the letter  
is only seventy nine years old.  
SAYS the Prescott Democrat, the old  
Del Paso mill, after having lain idle  
for years, is again running success-  
fully and producing nearly \$300 per day  
in gold bullion.  
THE House having ordered an in-  
vestigation into the \$2,000,000 deficiency  
in the "star" service of the Postal  
Department, there will now be music  
among the mail bags.  
WHEN Naomi stood up to get mar-  
ried and the clergyman asked her if  
she was sure she was fourteen years  
old, it must have been a terrible twist  
for her to admit that she was 380.  
THE Nugget says the fare from  
Tombstone to San Pedro is \$250. Be  
more careful with your points, gentle-  
men.  
The steamer City of Tokio on her  
last trip carried 700 Chinamen home-  
ward.  
The man who is all things to all  
men is "nothing to nobody."  
Geo. Moss will please send his ad-  
dress to THE CITIZEN.
